## ASSESSMENTS / CERTIFICATIONS

### Responsive Web Design

**Key Skills:** HTML CSS Responsive web design

Learned how to build websites using HTML5 and CSS3, focusing on clean structure and modern styling.

**Responsive Layouts:** Mastered Flexbox and CSS Grid to create websites that automatically adjust to fit mobile phones, tablets, and desktops.

**Practical Work:** Built and deployed 5 full web projects, including a personal portfolio and a technical document page, to show real-world coding ability.

**Accessibility:** Learned how to make websites easy to use for everyone, including people using screen readers.

### Java (Basic)

**Key Skills:** Java Data Structures OOPs

I recently earned the Java (Basic) Skills Certification from HackerRank. This timed assessment verified my ability to solve real-world coding problems using Java. I demonstrated proficiency in core concepts like Object-Oriented Programming (OOP), Inheritance, and Exception Handling. This certification serves as a professional validation of my foundational Java skills and my commitment to writing clean, effective code.

POSITIONS OF RESPONSIBILITY
